## FIRM PROFILE

Based in Irvine, CA, Hattox Design Group, LLC (HDG) is a full service public works and commercial space planning and interior design firm founded in 2003.

We are committed to creating positive work environments that promote the ability to reach strategic business objectives, achieve sustainability and enhance productivity. Our highly skilled designers and planners strive to develop powerful, people-centered solutions to maximize efficiency and cost effectiveness for our clients.

Elizabeth Hattox, company president and project principal, has 20 years of experience in:

- > Municipal for State, Federal
- > State & City Facilities
- > ADA & IBC Accessibility Codes and Studies
- > Green Building Practices (LEED AP)
- > Medical / Professional Offices / Medical Centers
- > Rehabilitation & Fitness Centers
- > Commercial Redevelopment
- > Industrial / Distribution
- > Administration & Operation Centers
- > Exterior Renovations
- > Interiors

## LICENSURE

**HDG** key personnel hold a Certified Interior Design certification from the California Council for Interior Design Qualification through the State of California.

## OUR PURPOSE

Hattox Design Group, LLC consists of a highly qualified and proven team of professionals with over 60 years of combined experience at the principal and senior staff level. Our knowledge of commercial real estate, evolving office space standards and green building practices enables us to create integrated, efficient and cost effective solutions to achieve our clients' goals.

We exhibit expertise in every aspect of our work, from initial project programming to design development and contract administration. The in-depth principal involvement and personal support we provide each client set us apart from other design firms.

## OUR PHILOSOPHY

We believe it takes a combination of business experience, knowledge of sustainability and artistic vision to create effective design solutions. HDG has all three. We blend strong technical, problem-solving and creative skills to design work environments that respond to change and inspire individuals to achieve. Integrity, excellence and personal commitment are at the foundation of our work. People and relationships are at the center of every project.

We begin each project by developing a total understanding of our client's mission, strategic objectives and interior branding needs. We are flexible enough to respond quickly to evolving circumstances and large enough to support projects on a national scale. Our extensive building code and accessibility knowledge enables us to reduce project schedules and expenses to achieve faster occupancy. We are proud to maintain a strong history of successful projects completed on time and within budget.

## SUSTAINABILITY

Under the leadership of company president Elizabeth Hattox, a LEED Accredited Professional, HDG is committed to design that is environmentally responsible and promotes an improved quality of life for building occupants. We deliver sustainable alternatives for building energy systems and interior finish products that best meet our clients' project objectives.

Our clients receive information and methods needed to achieve increased performance levels demanded by increasingly stringent energy management codes, a reduction in carbon footprints and healthier work environments.

## TECHNOLOGY & OPERATIONS

At HDG, we utilize state-of-the-art technology to achieve success. We communicate seamlessly with our clients and design team members at widespread locations via telephone, e-mail, PDA, satellite and wireless technologies.

Our staff participates in ongoing professional education to remain on the cutting edge of the industry. We frequently update applications and technologies to accommodate a variety of system and file formats and building codes.

HDG's main office is located in Irvine, CA, adjacent to John Wayne Airport (SNA), and approximately 40 minutes from both Los Angeles International Airport (LAX) and Ontario International Airport (ONT). Our proximity to major highways and interstates provides for timely vehicular access to all Southern California, Southern Nevada and Western Arizona locations.
