

Focusing on federal and military interior design renovations, new construction and design build support.

FIRM PROFILE

Hattox Design Group, LLC (HDG) is a woman-owned, small business certified by California DOT as a WBE and DBE with SBA 8(a) certification pending.

Based in Irvine, CA, **HDG** is a full service commercial space planning and interior design firm founded in 2003 by the organization's president and project principal, Elizabeth A. Hattox, CID, NCIDQ, LEED AP. Principal involvement in all phases of the design process assures attention to detail from project inception through completion.

HDG is committed to creating positive work environments that promote the ability to reach strategic business objectives, achieve sustainability and enhance productivity. Our highly skilled designers and planners strive to develop powerful, people-centered design solutions to maximize efficiency and cost effectiveness for our clients. Under the leadership of senior staff, we provide complete attention to individual project needs and schedules to enable our clients to reach their goals on time and on budget.

We believe it takes a combination of business experience, knowledge of sustainability and artistic vision to create effective design solutions. **HDG** has all three. Integrity, excellence and personal commitment are at the foundation of our work. People and relationships are at the center of every project.

PROJECT EXPERTISE

HDG maintains a strong history of success in commercial, medical, mixed use and public works projects with extensive experience in:

- > Municipal for State, Federal
- > State & City Facilities
- > ADA & IBC Accessibility Codes and Studies
- > Green Building Practices (LEED AP)
- > Medical / Professional Offices / Medical Centers
- > Rehabilitation & Fitness Centers
- > Commercial Redevelopment
- > Industrial / Distribution
- > Administration & Operation Centers
- > Exterior Renovations
- > Interiors

SUSTAINABILITY

Under the leadership of company president Elizabeth Hattox, a LEED Accredited Professional, **HDG** is committed to design that is environmentally responsible and promotes an improved quality of life for building occupants. We deliver sustainable alternatives for building energy systems and interior finish products that best meet our clients' project objectives.

Our clients receive information and methods needed to achieve increased performance levels demanded by increasingly stringent energy management codes, a reduction in carbon footprints and healthier work environments.
